

***Travelex renews its longstanding relationship with Nederlandse Spoorwegen***

*Tuesday 1 September 2020*

Travelex, the leading independent foreign exchange specialist, is delighted to announce a renewal of its longstanding relationship with the Nederlandse Spoorwegen (NS) and will continue to provide rail network customers across the Netherlands with access to foreign exchange services.

The contract renewal for more than 30 stores and ATM locations has come together under difficult circumstances due to the Covid-19 crisis – proving the resilience of the relationship and commitment to our customers which started over 90 years ago with the first store in a Dutch train station.

Anneke de Vries, NS Board Member said of the partnership: “In an increasingly environmentally conscious society, the public transport sector is set to grow steadily over the coming years, making it paramount to continue to offer a variety of services in our stations including access to foreign exchange solutions. We are happy to continue this cooperation because Travelex is an appreciated service among travelers”.

Travelex has a rich history in the Netherlands with over 150 years as a financial services provider in the country. Leonard Stolk, Managing Director Travelex Europe added: “As travel is slowly increasing, our loyal travel money customers are returning to our stores, all which will have reopened by mid-September.”
